**KING & COUNTRY**

**AUTHENTIC HAND-MADE HISTORY**

The name "Hong Kong" in Chinese simply means "Fragrant Harbour" and originated back in the time when the island was a collection of simple fishing villages off the coast of southern China.

After the Opium War of 1841, the island, its people and fine natural harbour were ceded by China to Great Britain. Hong Kong began its steady ascension to becoming one of the world's great crossroads and a major trading gateway for the west into the Middle Kingdom.

Journey back with us to a more colourful time when this unique city was a haven for empire builders and entrepreneurs... courtesans and sea captains... rickshaws, rascals and refugees. Come explore the 'Streets of Old Hong Kong.'
